

RAUNAK SHARMA

Full Stack Developer | MERN Stack | UI/UX Designer

+91-7428284587 raunaksh75@gmail.com Delhi, India

About me

I am a Full Stack Developer and UI/UX Designer with hands-on experience in building and deploying scalable web applications using the MERN stack, Python, and FastAPI. I excel at translating Figma designs into responsive interfaces and have experience creating AI- integrated tools and RESTful APIs. I am passionate about writing clean, maintainable code, with a strong focus on user-centered digital products.

Experience

Freelance projects focused on full stack development

- Independently designed, developed, and deployed 4 full stack web applications covering AI/ML, e-commerce, task management, and campus assistance domains
- Worked across the full development lifecycle — from UI/UX wireframing in Figma to backend API development, database integration, and cloud deployment on Vercel.
- Integrated third-party APIs including LLM providers and Supabase real-time subscriptions to deliver production-ready, data-driven user experiences.

Education

Bachelor of Technology (B.Tech)
VIT Bhopal University
08/2025 - 05/2029
Bhopal, Madhya Pradesh
First Semester - 8.78 gpa

Certifications

- Vibe with India — Built Campus Mind, full-stack AI assistant (React, Node.js, LLM APIs).
- Design2Code — Converted Figma designs into a responsive banking app UI.
- Stratathon — Performed dataset segmentation using Python (scikit-learn).
- HackSecure — Participated in cybersecurity problem-solving challenges.

Skills

- GitHub
- MongoDB
- Express.js
- React
- Node.js
- Python
- TypeScript
- Figma
- Tailwind
- REST
- Vercel
- JavaScript
- ES6+
- HTML
- Chart.js
- Responsive Web
- PostgreSQL
- Git
- Visual Studio Code
- Wireframing
- CSS
- Ui / Ux

Fluent

Hindi ●●●●●
Native

Projects

AI Resume Analyzer

- Built an end-to-end AI web tool to parse PDF resumes and score them across 6 dimensions using TF-IDF cosine similarity.
- Developed a FastAPI backend with pdfplumber for text extraction, delivering scores (0-100) with structured feedback in <3 seconds.
- Deployed on Vercel with a responsive frontend and robust error handling for diverse resume formats.

Campus Mind

- Developed a full-stack AI assistant to handle student queries using LLM APIs with context-aware conversation management.
- Built a responsive React chat interface with accessibility features and error boundaries.
- Designed a Node.js/Express backend for session handling, prompt logic, and secure API communication.

E-commerce Admin Dashboard

- Built a responsive admin dashboard with real-time analytics, inventory, and order tracking using Supabase (PostgreSQL).
- Implemented dynamic data visualizations with Chart.js and added persistent dark/light mode.
- Used TypeScript for type safety and scalable component architecture.

Task Management App

- Developed a collaborative task manager with Kanban boards, multiple views, and priority tagging.
- Applied advanced React patterns (custom hooks, Context API) with TypeScript for scalability.
- Designed UI in Figma and implemented pixel-perfect layouts using Tailwind CSS.
